Build a Roof over the Elementary School Play Area

1. Synopsis – The small community of El Tablon has requested a roof to shade the play area at the elementary school. The size is 12 meters by 20 meters. Amigos de Guatemala had fencing installed around the school to protect the children when they are outside during recess. By installing a covered area, the children will be protected from the elements while enjoying the fresh air and playing with their friends.
2. Areas of Focus
 - a. Supporting Education – Creating a protected environment from the elements for students but still enabling them to enjoy the outdoors.
3. Request – Q77,845/\$10,000.
4. Commentary –The request came from the principal and superintendent of schools for the municipality of Zacualpa to ADIZ, which is a local NGO in Zacualpa, el Quiché that Amigos de Guatemala has partnered with for over 15 years.
